Code Of Ethical Standards

All members of the National Board shall maintain the integrity and competence of the hypnosis profession by agreeing to abide by the following code of professional ethics.

1. All members shall conduct themselves and their sessions at all times in a professional manner and in a professional setting, and only within the limits of their training, with the client/patient's/students best interest held above **all other** considerations.

2. All members shall obey **all state, federal and local laws and regulations** concerning the practice of hypnosis/hypnotherapy.

3 All matters between the member/therapist and client/patient shall be kept confidential. No third party shall be allowed access to confidential client/patient information. Exceptions: **A)** When the client/patient gives written permission. **B)** When directed by a court with jurisdiction.

4. **No physical contact** shall occur between a member and a client/patient/student, including but not limited to, that of a sexual nature. This remains in effect for a minimum of one year after professional services have been terminated.

5. All members will only work within the training and knowledge acquired through approved sources.

6. All members shall keep current with new innovations in their field of practice and shall keep their CEUs and membership fees current.

7. Prior to entering into any professional relationship, the member shall disclose to the client/patient the nature of the services, the purpose of the services, the length of time anticipated and the cost for the services. **No services** will be given without a signed consent form from the client/patient.

8. All members shall refer any and all people they are not qualified to handle.

9. All members shall act in a professional manner toward other members and other professionals. Any harassment toward any member or a director is strictly prohibited.

10. A member must terminate his/her relationship with a client/patient when the client/patient can no longer benefit from his/her services, and will not continue to provide help if the member does not have a good faith belief that the client/patient will benefit from further help.

11. All members must report any and all arrests and or convictions within 24 hours.

The National Board of Professional & Ethical Standards...

Mission

NBPES's goal is to educate society in alternative and complementary health care methodologies. This is accomplished by the practical and thorough education and support of its students. By teaching modern, yet historically well-documented, holistic arts and sciences, we believe strongly in the mind, body and soul connection and the body has the ability to heal itself through natural means. As the world seeks natural and safe health alternatives, NBPES is proud to offer instruction to those who desire to fulfill this need.

Objectives

To meet the demand for quality education in this worlds ever

changing alterative health care field. To provide the best support and guarantee at the lowest cost possible.

A MESSAGE FROM OUR RETIRED PRESEDENT

Greetings, Members and Friends!

It was wonderful to see each and every one of you at the Ocala Florida Convention in October. I missed seeing members who I had the pleasure of meeting at the 2003 Las Vegas conference and Orlando 2005 Conference.

I do not know about you folks, although I am always searching, studying everything I can access by any means. At times I get so confused with all of the technology available I do not realize how powerful and wonderful the training I have received is.

It is very easy to make simple techniques extremely technical, especially if you're analytical like I am. I have the pleasure of listening to tapes, CD's and watching videos submitted by students to the NBPEs. I am continually amazed at the creativity demonstrated in presenting the course work assignments. It causes me to realize how effective, and how well NBPEs course work material is presented.

If you are anything like me, I find myself straying away from the course work basic techniques and strategies. Every time that I pull out the study manuals to refresh my memory I am astounded at the valuable information and techniques, I have either abandoned, or I had not fully incorporated the value of a technique.

The course work material (lessons, tapes, videos, scripts and other information) is VERY POWERFUL. Like me go back to the course work manuals and other material when questions and snags start developing. The answers are there upon review. It is remarkable the quantity and quality of instruction packed into NBPEs course work material.

Seeing techniques employed first hand during the convention brought out an emotional side of me not often displayed publicly. Experience during the convention straightened my faith and commitment to push on. Please share your experiences and ideas with us, as it is this catalyst that keeps many of us going. Working with depressed, suppressed, or substantially challenged individuals all of the time often drains our batteries.

Thank all of you for the RE-CHARGE. Have fun reviewing your NBPEs manuals.

Donald Murphy
President

About The National Board

The National Board was started in 1995 with one goal in mind: to bring *Hypnosis* to a higher level than ever before, to set and maintain a high level of standards internationally, and to be the number one organization for competent and professional *Hypnotists/Hypnotherapists* from around the world. Soon after we started we became aware of the need to provide quality courses to our members at the best possible price. We continue that mission today being the number one hypnosis organization in the world.

One way we do this is to investigate any and all complaints of wrong doing of any member and take whatever appropriate action may be deemed necessary. We do background checks. Consequently, we will always maintain the highest level of professional standards above all else. We maintain a board of directors consisting of top notch people from all walks of life and from all over the world. One of our directors is from Sri-Lanka another from the UK. This not only gives us a truly worldwide perspective but we have the a much larger talent pool to choose from.

Our organization is unlike any other for several reasons. **1)** We offer unequalled **lifetime support** 18 hours a day 365 days a year, the best in this field and probably in any health care related field. We provide you with your own personal advisor. **2)** We have the very **best guarantee** of any like organization of up to three years. **3)** Our courses are **accredited** or approved by several sources including a US State, Department of Education (NJ), a private International Accreditation organization and last but certainly not least by *The American Association For Higher Education and Accreditation*, founded in 1870 www.AAHEA.org. One of, if not the most prestigious educational organization in the world. **4)** We find the best minds and have them develop courses on subjects they know better than anyone else. This gives the student the best course, price, support and service money can buy. **5)** We offer worldwide **free internship** for our courses at any one of our 65+ centers.

We are affiliated with a few really great worldwide organizations and so our members benefit from memberships in all of the affiliated organizations which include the following: **The Professional Board of Hypnotherapy, Inc.**, located in Canada. The oldest continuing, and most prestigious hypnosis organization in the world, **The British Association of Therapeutical Hypnotists** founded in 1950-1 in the UK., **The Australian and Spanish Hypnotherapy Associations**, **The UK's Psychological Society** and last but not least **Pebble Hills University**. We are members of the following: **The International Distance Educator's Association**, **The Florida Distance Learning Association**, **The United States Distance Learning Association**, **The United Nations Association**, **The International Society for Investigative and Forensic Hypnosis**, **The American Association for Higher Education**, located in Washington DC, we are members of **The World Wide Web Chamber Of Commerce and the Better Business Inc.** **All with NO complaints on us!**
